## 6 Diode Pattern

NOW AVAILABLE IN  
GLOSSY WHITE, BLACK  
& CHROME FINISHES

**NEW**

### FEATURES & BENEFITS

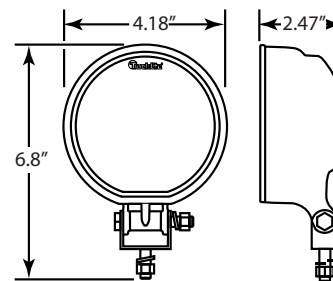

- Rugged all purpose spot lamp manufactured by a leader in LED lighting innovations
- Long light pattern provides a targeted beam to brightly illuminate your specific area of interest
- LED spot lamps provide a more even lighting than comparable incandescent spot lamps
- LED light is whiter and brighter creating better visibility where you need it most
- LEDs have no filament, and electronic components are potted in epoxy to provide extreme resistance to damage from shock & vibration
- LEDs have less current draw, resulting in increased battery & alternator life while allowing more power for other vehicle requirements
- White finish is popular in marine applications, while chrome finish is popular among show vehicles, off-road and utility trailers
- 12 volt lamp operates at full brightness between 8.5v and 16v with overvoltage protection at 17v-18v
- 24 volt lamp operates at full brightness between 21v and 34v with overvoltage protection at 34v-36v
- Includes stainless steel mounting hardware
- Mounts on one 5/16"-18 stud
- 5 year limited warranty

\* Chrome finish versions will be available in March, 2010
