

LED Headlights

TRUCK-LITE LED HEADLIGHTS

COLOR & VISIBILITY

Truck-Lite LED headlights provide a crisp, bright white light closer to the color of daylight. This, combined with their wide, even beam pattern makes for a safer, more enjoyable driving experience. See more. Go further.

STRENGTH & DURABILITY

Built using solid-state technology and military-grade components, Truck-Lite LED headlights keep on shining bright through the toughest conditions.

ENERGY EFFICIENT

Truck-Lite LED headlights draw less power than halogen headlights while still offering increased visibility. This energy savings translates to more power for other vehicle requirements.

LOWER MAINTENANCE COSTS

Fewer replacements = more savings, and with Truck-Lite's LED solid-state technology, you won't find yourself in constant need of bulbs and filaments. LED systems have the lowest maintenance costs of any lighting technology.

MADE IN USA

All Truck-Lite LED headlights are proudly made right here in the USA using the highest quality materials and processes inside our state-of-the-art facilities.
